

Ref. No. VAHE/CBSE AFF. DOC/2022-23/

Date 10.05.2023

Acknowledging and Admiring the achievement of our institution's most expected event every year is the **Annual School Day Celebration**. It is an important time for students to show the audience their talents. The most treasured moments of this Day are the sincere arrangements, the uncontainable enthusiasm, and the full dress rehearsals. Preparations for the Annual Day began well ahead of time, sometimes two months earlier. With all the vibrant charts on all subjects carefully hand-made by the students, and artistically displayed on the walls and thoroughly cleaned classrooms, the school gets a complete face-lift.

Children have demonstrated their skills through numerous **competitions** at **the school or inter-school level** and it gives us immense pleasure to share with you all that not only in sports competitions but our school children perform excellently in **Olympiads of all subjects**, essay writing competitions, and many other academic competitions. **Various Competitions** are opportunities that we provide to our students, where they can test their education and evaluate them by participating in various sports and academic programs as follow- Elocution, Hand Writing, Essay writing, Ganit Week, Science Day, Marathi Rajbhasha Din, National Youth Day, Hindi Day, Reading Day, English Day. We believe in a method of learning which encourages each child to actively participate and inculcate good sportsmanship. At the class level, children who have difficulties whether it be in public speaking, stage fear, or lack of confidence to perform are encouraged to come forward by creating a comfortable environment so that they can win over their fears.

Our methods of teaching are holistic and inclusive. This Annual festival is a perfect example of this, ensuring that every child participates and performs. It gives each student a chance to come forward and demonstrates what is good in academic and non-academic activities. We feel that without the outlet of their abilities, the entire teaching process is incomplete.

We have therefore established this as a necessity on this Annual Day and have planned the Annual Day program in such a way that even talent such as art should be taken into account. You'll see lots of pictures and posters if you look around. The names and classes of students who have drawn, sketched or painted these images are reported by each individual. Take some time to go through this precious art gallery, as identification is also needed. Who knows that it might be your child who had this talent, even if you didn't know it. And some works of art are award-winning submissions. Let's welcome them for success.

Academic achievement is an important developmental outcome because of its association with economic prosperity, physical health, and mental health. Given its importance, policymakers, national, and local levels regularly administer tests of academic achievement to determine whether children are learning what they need to learn to be successful in the workplace. Students in various classes seem to acquire a certain amount of skill in reading, mathematics, science, and social studies but not enough to be successful. In addition, whereas gender differences exist in some areas, these differences are rather small compared to ethnic and racial differences in performance.

To help determine possible ways to intervene to elevate the performance of all students, studies have been conducted to identify factors that are strong predictors of achievement. These studies show that characteristics of students such as their existing knowledge, motivation, and self-regulation are particularly important determinants. However, peers, families, and instruction are also influential.

Our Biggest achievement in the current year was to migrate from the old system of examinations to the continuous and comprehensive Evaluation (CCE) process for the complete school from Class 1st to 10th. CCE is the format implemented by CBSE, keeping in view the INTERNATIONAL standards in education. The child's academic performance is measured in a series of Formative and Summative examinations with a lot of emphasis on Learning through the Doing Process. The school has produces a digital platform to enlarge learners for effective material including animated videos, question banks, interactive exercise to test the concept.

We have incorporated 26 digital visual rooms for demonstration of the smart classes .The school has tied up with Altura Macmillan Software for interactive teaching from 1st to 5th .The smart class provides great support through audio-visual approach in addition to the normal chalk-and-talk method.

Our students were given opportunity to participate in all Olympiad examinations in Mathematics ,Science ,English which organized by Olympiad foundation of different streams .Many students have reached the state and national level in these examinations .Students are also enrolling Navodaya Exam, Sainik school entrance exam, Homibhaba Balvaigyanik Exam, State Scholarship exam.

Special communication programmes has been organised from primary classes to enhance their communication skills .

A large number of projects have been implemented in the year to emphasize on the concept of learning through doing of learning through doing for better concept penetration.

PICNICS and Excursions:

“ ALL Work and NO Play makes Jack a Dull Boy” . The school has organized one day picnic programs for the students. The students of primary classes were taken to the Gandharav Water Park Top Sambhapur, Dist-Kolhapur. The students of all classes were taken to for different water games ,rain dance ,magic shows ,3D animated movies .This was one day when all the teacher and the students together collectively had all the fun.

To promote the competitive spirit and to bring out the talent of the students, students from classes 1st to 10th have taken part in different **CBSE competition** like reading Authors programme ,CVC competition, Story telling ,veer Gatha project ,Bhasha Sangam , they are encouraged to participate in various co-curricular activities. Competitions like Calligraphy, Drawing and Painting, Essay writing, Recitation, Elocution, Dance, diya painting etc. were conducted during the course of the year.

The school has many students who not only excel in academics but also in the area of Dance, Music, Theatre and art. A lot of them have already performed on stage to the outside world thus making a interesting career out of these areas.

SCIENCE EXHIBITION: The science exhibition held every year in the month of February . School has achieved Ranks at Taluka (2017-18) level and district level(2018-19) in year It is important for the children to realize the importance of science . The school has conducted 2 social responsibility camps during the year for the children to realize the importance of sharing and helping.

Investiture Ceremony:

Our school office bearers were officially sworn in a very impressive investiture ceremony on 10th Dec. of every year on account of Human Rights Day . The school cabinet was lead by our Head Boy Ma. Swaraj Godase and Head girl Miss. Sneha Doiphode.

The ceremony began with the guard of honour for the chief guest followed by a colorful march past. The office bearers were briefed about their responsibilities by the Director of Vivekananda Academy of Human Excellence, Chimangaon. An excellent skating performance was put up by the students followed by a cultural program.

Independence Day was celebrated with a patriotic spirit by hoisting the national flag. A talk on the significance of 15th August and the spirit it symbolizes was given by our director Mr. Sali Sir.

Medical Check-Up:

An Eye checking camp was conducted by the Doctors of Civil Hospital Koregaon for the students of class 4th to 10th. In addition to this – Regular height , weight and chest measurements have been recorded by sport teacher for all the students in the beginning of the year. These will be compared with the year end measurements and reported to the parents in the final report.

Seminars:

All teachers are taking training from CBSE,COEs .There are number of training held by CBSE in the areas of CBSE ,online, offline, subject related ,mental health and wellbeing ,sport related as well as related to new technology and NEP 2020, etc. trainings were attended by all 35 teachers.

The school believes in getting many organizations for in house training purposes. Many of our teachers were sent for In-service training programmes and workshops to enhance their teaching skills. Authors of all major publishers of books have come to the school to train our teachers.

In addition to this many other seminars from school arranging career guidance and counselling sessions for the students .These are related with JEE,NEET,(engineering and medical ,MPSC,UPSC,SPORT etc.

Sports and Games:

The school has always been taking initiatives to get the best talent in the sports arena. We have consolidated the sports activities on the weekends where the school has tied up with professional coaches at national level for Basket Ball, Skating and Tennis to coach our children. The sports program helps us in identifying talent in particular sports and give more exposure to the students. Some of our achievements are:

- The school has lifted the prestigious TALUKA & DISTRICT LEVEL Sports – Cricket creating a record in the city.
- School has won the prestigious CHESS tournament under 14 & 17 knock out tournament under the guidance of our expert coach LONDHE ANIL
- School has won Bronze Medal at the National Open TAEK Champion 2022, in addition to this she has won silver at the MAH State open TAEK championship and gold in TAEKWONDO championship.
- On Children's day Inter-house sports competition in Short put, Volleyball, Basketball and Running Races were organized at the school premises.
- Year on year our school has been giving the highest number of players to the state team. Our heartiest congratulations to all of them.

All the good work of the school has been possible with the cooperation of our highly qualified and dedicated faculty. Our special thanks to the all board of directors and management committee of our school for their able guidance and encouragement. If I were to put all the events at in a Nutshell, we encourage a child to observe, to explore, to experiment ,to probe, to analyse, to confront problems & find the solutions, Finally to develop the skills essential to face the future.

Skill Education:- School has develop STEM lab on 28th February 2021 through which our student of Grade IV to X are taking education practically for the different courses like 3D Printing, Robotics, Basics of Electronics, Scratch Programming , Block Coding, Drone Assembling and 2 D plotter designing.
